

Acwa power Senegal

What will ACWA do in Senegal?

ACWA will develop, finance, build and operate the Grande Côte seawater desalination plant in Senegal, as well as design and construct the associated infrastructure. The desalination plant will be constructed in two phases of 200,000 m³/d capacity for each phase.

Who is ACWA Power?

ACWA Power will bring its long-standing experience as a leading developer and operator of desalinated water and power generation facilities to create utility infrastructure essential to Senegal's future capacity requirements.

Will Senegal pay ACWA a year?

We have decided not to pursue it," the country's water minister Cheikh Tidiane Dieye said in a statement to AFP. Dieye had announced on television late Wednesday that Senegal was to pay Acwa 20 to 40 billion CFA francs (\$33 million) a year for the water from the plant, whose construction has not yet begun.

How can ACWA Power contribute to strengthening ties between Saudi Arabia and Senegal?

We are deeply honoured to contribute towards the strengthening ties of Saudi Arabia, our home country, and Senegal via the signing of two landmark MOUs today and we extend our sincerest gratitude to the Senegalese leadership for their trust and confidence in ACWA Power's abilities to realise these strategic projects for the country.
