

# Aggreko solar Saint Helena

In May 2023, Aggreko agreed to become the financing and development partner for a 500MW US community solar portfolio. Image: Aggreko. Power generation equipment supplier Aggreko has acquired the UK and South African-based businesses of RenEnergy to bolster its solar and storage capabilities.

Aggreko brings the advantage of deep expertise and extensive experience in some of the world's most complex solar projects. We work with contractors and energy producers around the world and we can rightsize your equipment and grid based on your unique risks, timelines, and the scale of your solar plant.

Discover Aggreko's hybrid power plants which combine renewable energy, thermal power generation and battery storage technology for reliable solutions. Our solar-diesel hybrid package is designed to benefit any industry with a power need in a location with limited or no access to permanent power.

At Aggreko Energy Transition Solutions (AETS), our mission is clear: to advance the energy transition through the development, ownership, and operation of clean energy infrastructure across the U.S. We are dedicated to developing solar and storage assets that are not just clean, but also reliable and economically sound.

Lower costs of energy and zero emissions - Aggreko Solar Power is the ideal solution if you want to benefit from clean energy innovation, without the long-term financial or technological commitment. Our mobile and modular solution is ideal for areas with weak or no grid connection and can be deployed in as little as three months.

Lower costs of energy and zero emissions - Aggreko Solar Power is the ideal solution if you want to benefit from clean energy innovation, without the long-term financial or technological commitment. Our mobile and modular solution is ...

The launch of Aggreko Solar Power comes after the successful installation of panels and a battery storage system at the Granny Smith gold mine in Western Australia. More than 23,000 panels were installed at the site, together with a 2MW/1MWh battery system, which will support Aggreko's existing 27MW gas fired power station at the mine. ...

Partnering with Aggreko will help you in your transition whether that's to a lower carbon future, decentralised economy or through digitalisation and energy management optimisation. ... Solar Hybrid power cuts costs and emissions. View case study. Mining . Keeping a gold mine cool. View case study. Mining . One of the world's largest ...
