Can solar energy replace fossil fuels on Pitcairn Island?

Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy. The goal is to replace 95% of the current diesel consumption on Pitcairn Island (75,000 liters per year) with a combination of energy saving and solar electricity through the installation of a hybrid photovoltaic solar energy system.

Will GE Power & Water merge with Alstom Power?

The firm has announced that, following the completion of the acquisition, GE Power & Water will combine with Alstom Power to form GE Power. Integration of Alstom power unit's technology and geography and GE's power generation technologies, services and specialisation is expected to boost the global energy utility sector.

Are there Adventist churches in Pitcairn?

Archived from the original on 19 October 2015. Although the Adventist Church has always maintained a resident minister and nurse on Pitcairn, there have been fewer adherents and some church members have moved away from the island. By the end of 2000, regular church attendees among the island population of 40 numbered only eight.
