Who is American energy storage innovations (AeSI)?

Given the enormity of the opportunity, the division becomes a free-standing company, American Energy Storage Innovations, Inc. AESI comprises highly experienced core team members who have developed five generations of large-scale BESS systems, heretofore having deployed more than 1.5 GWh worldwide.

Why do we support AeSI?

"We're proud to support AESI as they scale production and continue delivering unmatched value to their customers," said Steven Chen, Vice President of EVE Energy Co. Ltd. "Together, we're pushing the boundaries of innovation in the energy storage market."

What does AeSI stand for?

About American Energy Storage Innovations, Inc. (AESI) AESI is a pioneering provider of advanced grid-scale battery energy storage systems designed for high reliability, superior performance and the lowest total cost of ownership.

Why should AeSI focus on energy storage innovation?

By focusing exclusively on energy storage innovation, AESI will be better equipped to respond to the evolving demands of the market, accelerate technological advancements and drive the transition to sustainable energy solutions.

What is AeSI TeraStor?

AESI's flagship product, TeraStor, empowers customers to harness the full potential of renewable energy and optimize energy management for maximum profitability and sustainability for utilities, independent power producers and large-scale energy projects.

By focusing exclusively on energy storage innovation, AESI will be better equipped to respond to the evolving demands of the market, accelerate technological advancements and drive...

by a need to break free and operate with laser focus on revolutionizing grid-scale energy storage. This spin-out was a recognition of the enormous independent potential for AESI, positioning it to capitalize on the huge demand for energy ...

We've designed and manufactured an entirely new line of energy storage products to meet the needs of grid energy storage, deployment, operation, and energy management for the next 20 years. Every detail in our AESI products makes them fundamentally easier to purchase, install, maintain and operate than any other energy storage alternative ...

At AESI, we are committed to driving innovation in the energy sector with our flagship product, TeraStor - an ultra-dense and ultra-reliable grid-scale battery energy storage solution (BESS). As energy storage becomes an integral part of the modern grid, we recognize that fire safety and risk mitigation are paramount.

Greg started his career in Energy Storage in 2006, when he joined the A123 Systems team and led the design of A123's first module level electronics, string level (BMS) electronics, and system level architecture for 200KW hybrid buses made by Daimler. This was the genesis for A123's first grid scale energy storage solutions. In 2009, [...]
