

When will Azerbaijan's 230 MW Garadagh solar plant be built?

The groundbreaking follows Masdar's completion of the 230MW Garadagh solar plant in October 2023, Azerbaijan's first foreign investment-based independent solar power project, and the largest solar plant in the region.

Will a 230 MW solar power plant be built in Azerbaijan?

On January 9, 2020, the Ministry of Energy of the Republic of Azerbaijan and Masdar Company of the United Arab Emirates signed an Implementation Agreement. According to the Agreement, pilot project will be implemented for the construction of solar power plant with a capacity of 230 MW by "Masdar".

Which solar projects are being built in Azerbaijan?

The installations include the 445 MW Bilasuvar PV project and the 315 MW Neftchala solar plant, both in southeastern Azerbaijan. Investors signed investment agreements for the projects in October 2023 and have since signed power purchase agreements, transmission connection agreements, and land lease agreements.

Who is the president of Azerbaijan?

President of the Republic of Azerbaijan Ilham Aliyev and Minister of Industry and Advanced Technology of the United Arab Emirates Sultan Ahmad Al Jaber attended the ceremony. The Garadagh Solar PV Plant is the largest solar power plant in the Caspian region and the CIS. The plant was built at the expense of foreign investment worth \$262 million.

Is Azerbaijan ready for green energy?

"Laying the foundation of 3 stations with a capacity of 1 GW is not only a first in the field of green energy in Azerbaijan, but also a bright indicator of our solidarity and commitment to the energy transition," said Shahbazov. Masdar completed a 230 MW solar plant in Garadagh, near Baku, in October 2023.

Will Azerbaijan generate 30% of its energy by 2030?

Azerbaijan has set a target of generating 30% of its energy capacity from renewables by 2030. The country's total solar capacity reached 282 MW at the end of last year, according to figures from the International Renewable Energy Agency (IRENA). Azerbaijan's first-ever solar auction, for a 100 MW project, launched earlier this year.
