

Battery for solar power plant Romania

Vienna-based renewable energy company Enery has inaugurated a 51.4-MWp solar farm, coupled with a battery energy storage system (BESS), in northwest Romania. The Sarvasag solar farm in Romania. Image source: Enery.

The Ministry of Energy of Romania has reopened a competitive solicitation for battery storage for the grid integration of renewable energy, seeking "at least" 240MW and 480MWh of resources. The Ministry made its announcement yesterday (8 February), aiming to get the 2-hour duration battery energy storage system (BESS) facilities up and ...

This week, Vienna-based Enery has commissioned a major solar and storage site in northwestern Romania. The project consists of a 51.4 MW PV plant and a battery energy storage facility of 22 MWh. The project ...

Prime Batteries and Monsson put into operation the largest capacity of electric energy storage in batteries in Romania. This is part of the first hybrid photovoltaic-wind-battery project, within the Mireasa Wind Park, with a capacity of 50 MW, located in Constanta County.

The construction of a EUR 1 billion solar power plant with storage is due to begin in the summer in Romania's Arad province, Agerpres reported. The project, for which Rezolv Energy has acquired development rights from Monsson, consists of 1.04 GW in photovoltaics and a 500 MW storage unit, according to Gr?niceri Mayor Petru Claudiu B?trînu?.

Monsson inaugurated a 24 MWh battery energy storage system in Romania. It is the first phase out of 216 MWh planned in total. The facility is connected to the company's Mireasa wind farm of 50 MW, while a 35 MW ...

Two weeks after inaugurating an industry-scale solar power plant in neighboring Bulgaria, Enery commissioned a photovoltaic facility in Romania of 51.4 MW in peak capacity and 22 MWh in battery storage. A virtual power purchase agreement (PPA) with Asahi Europe and International (AEI) on behalf of its Ursus Breweries contributed to the ...
