The BESS facility will mitigate grid constraints and lower energy costs for consumers. Credit: Es sarawuth / Shutterstock. UK's Kona Energy has obtained approval from the Scottish government for its 228MW Smeaton ...

The International Brotherhood of Electrical Workers (IBEW) is a labor union that represents approximately 820,000 workers and retirees in the electrical industry in the U.S., Canada, Guam, Panama, Puerto Rico, and the US Virgin Islands, including electricians and other public utility employees. The union also represents some workers in the ...

In Maricopa County, Arizona, the Mesquite 4 project includes a 10MW (40MWh) battery storage system and a 52.5MW solar facility. Set to become operational in February 2024, it will increase the Mesquite complex's total capacity to 530MW. The solar PV and BESS services will be provided to the Modesto Irrigation District.

RWE has commenced construction on three battery energy storage systems (BESS) with a combined capacity of 450MW in Texas, US. The three BESS facilities that the company plans to build are called Crowned Heron 1 and 2, and Cartwheel 1.

The companies will deploy BESS facilities in 13 SE3 and SE4 communities by the summer of 2025. September 3, 2024. [Share Copy Link](#); [Share on X](#); [Share on LinkedIn](#); [Share on Facebook](#) ... combination of long-term active ownership and deep expertise in energy systems makes them an ideal partner to help us achieve our ambitious goals.

One of the identically-sized 20MW BESS projects in developer Enfinite's eReserve portfolio in Alberta. Image: Enfinite. A joint venture of UK-based Aura Power and Germany's ib vogt, along with the Canadian development arm of France's Neoen, have recently submitted applications with the Alberta Utilities Commission (AUC) to construct three projects ...

Plan of Tenaska's proposed Goldeneye BESS site, taken from Washington EFSEC documents. Image: Tenaska. Nebraska-based independent power producer (IPP) Tenska has submitted an application with the Washington Energy Facility Site Evaluation Council (EFSEC) for the construction and operation of a 200MW/800MWh standalone battery energy ...

At the time of its inauguration in late December 2017 it was claimed as the largest lithium-ion BESS project in the world by technology provider AES. Mandatory evacuation orders were issued by local authorities in Escondido, California, after a fire broke out at a battery energy storage system (BESS) facility.

Another BESS fire in California. As recently reported by [Energy-Storage.news](#), a fire broke out on September
