

Bess mobile Saint Lucia

Does Saint Lucia offer eSIM?

Unfortunately, none of the mobile operators offer eSIM (to prepaid customers) in Saint Lucia yet. Note that the Saint Lucian mobile operators require your identification (passport) for (future) eSIMs and physical SIM cards. However, you can also get a travel eSIM from various eSIM providers.

Is there a cell phone service provider in St Lucia?

Here's what I found: there are two cell phone service providers on St. Lucia: Digicell (the incumbent) and LIME. As far as calling and texting go, they are pretty much the same. For data, LIME seems to have an advantage, supporting 3G data (faster data rates).

Does Saint Lucia use GSM?

Saint Lucia uses GSM for their cellular communications, meaning that you need a GSM-capable phone to use your phone in the country. Fortunately, there is about a 99% chance your phone supports GSM. Besides that, you need to be aware of the ITU Regions to determine whether your phone will work in other parts of the world.

Which SIM card to buy in Saint Lucia?

If you want to buy the best SIM card in Saint Lucia, I recommend going with Digicel. It has the best coverage and the fastest speeds. Moreover, Digicel also has attractive plans (Prime Bundles) with dedicated data allowances for Prime apps, TikTok & YouTube (up to 45 GB/app).

Is international roaming expensive in Saint Lucia?

While it is inevitable that you will share plenty of photos and videos of Saint Lucia online, you should know that international roaming can be expensive. Luckily, Saint Lucian SIM cards are inexpensive (and you can even get one for free) - so is the cost of mobile data on this island nation.

How much does 1 GB of data cost in Saint Lucia?

The average price for 1 GB of data in Saint Lucia is 2.62 USD, below the Caribbean average of 4.44 USD. The world average is 4.07 USD. Compared to 2019's figures, the average cost of 1 GB of data has gone down by 45.9%.
