Providing solar energy solutions for households and businesses is crucial to incorporating more Congolese people into electrical grids, but many in poorer, remote regions in the DRC also face the challenge of getting approved ...

Indian renewable energy firm Soleos Energy - in collaboration with electrical engineering company Melci Holdings - has launched construction of a 200 MW solar park in the Democratic Republic of the Congo (DRC).

Solar water heaters: Energy-efficient solar water heating systems for hotels, restaurants and other commercial establishments. Residential Solutions Solar panel installations: Solar panel installations on residential roofs, offering reliable, cost-effective energy solutions.

Soleos Energy is partnering with Melci, an electrical engineering company in the Democratic Republic of Congo (DRC), to construct a 200 MW solar PV power project. The project will be executed under a 25-year power purchase agreement (PPA) with DRC state-owned utility Soci  t   Nationale d'  lectricit   (SNEL).

Providing solar energy solutions for households and businesses is crucial to incorporating more Congolese people into electrical grids, but many in poorer, remote regions in the DRC also face the challenge of getting approved for loans or credit which they need to finance solar home systems.

Since 2013, Altech, a Congolese-owned solar home system company, has been lighting homes in some of the remotest parts of the Democratic Republic of the Congo (DRC). Altech's founders,...
