

Who is the receiver of brevia energy?

On February 23, 2016, the Court of Queen's Bench of Alberta (the "Court") granted an Order (the "Receivership Order") whereby Alvarez & Marsal Canada Inc. ("A&M") was appointed receiver and manager (the "Receiver") of Brevia Energy Inc. (referred to as "Brevia" or the "Company").

Which agencies in Afghanistan are engaged in the energy sector?

Among the agencies in Afghanistan that are engaged in the energy sector, there are often overlaps and in some occasions contradictions in mandates, jurisdictions and scope of work, in particular with regard to MEW, DABS, MoMP and MRRD.

What are alternative energy sources in Afghanistan?

The Afghan National Development Strategy has identified alternative energy, such as wind and solar energy, as a high value power source to develop. As a result, a number of solar and wind farms have been established, with more currently under development.

What type of electricity is used in Afghanistan?

The majority of electricity in Afghanistan is imported. The Naghlu Dam is one of the largest dams in Afghanistan, which provides some electricity to Kabul Province, Nangarhar Province and Kapisa Province. Energy in Afghanistan is provided by hydropower followed by fossil fuel and solar power.

How do rules-in-use work in Afghanistan's energy sector?

Patterns of interaction The rules-in-use, along with the institutional missions and organizational structures of the many participants in Afghanistan's energy sector, comprise a framework designed to govern the sector's operations.

How much electricity does Afghanistan use a year?

Per capita consumption of electricity in Afghanistan remains among the lowest in the world, at about 100 kW-hours (kWh) a year (ADB, 2015). This energy consumption is the equivalent of powering a 50-watt light bulb about five and a half hours a day for a year and not using anything else. In addition, reliability remains a pressing issue.
