

British Indian Ocean Territory (BIOT) Overview: The British Indian Ocean Territory (BIOT) is an overseas dependent territory of the United Kingdom that was established in 1965. The BIOT is comprised of six main island groups called the Chagos Archipelago. The largest and most southerly of the islands, Diego Garcia, is now used as a joint

Noor Abu Dhabi has also set a record at the time of submission of bids, attracting the most competitive tariff of AED0.08.888/kWh. EWEC CEO Othman Jumaa Al Ali said: "Noor Abu Dhabi will generate renewable energy and will enable us to improve the use of our natural resources.

Formerly administered as part of the British Crown Colony of Mauritius, the British Indian Ocean Territory (BIOT) was established as an overseas territory of the UK in 1965. A number of the islands of the territory were later transferred to the Seychelles when it attained independence in 1976. Subsequently, BIOT has consisted only of the six ...

The technology used includes a combination of the world's largest solar tower at 260 meters (100MW), parabolic trough concentrated solar power technologies to collect energy from the ...
