We specialize in the construction of photovoltaic systems for business, home and solar power plants. We provide reliable and cost-effective solutions for the use of renewable energy for the needs of our customers in Bulgaria and the European Union. We are your trusted partner for turnkey solar systems projects at all sizes.

JD Solar is one of the leading companies in Rooftop Solar Parks creation in Germany. Since 2020 we operate on the Bulgarian market too being 100% Bulgarian company. We are specialized in technical design, installation and commissioning of Solar Parks - ...

Our mission is to offer the highest quality engineering solutions in the design, construction and maintenance of photovoltaic systems using the most modern, high-tech panels. Driven by our experience and professionalism, we strive to achieve the best and are constantly improving ourselves by conducting research and development.

Whether you are planning to build a solar plant for your enterprise, on land or on the roof of your building, the company will guide you to the best solutions according to your budget and goals. They will also explain how to get the most efficiency and profit from your future solar plant.

We have the perfect solution for every type of commercial and industrial roof - safe to install and operate photovoltaic systems, durable and user-friendly. Elsol ltd is one of Europe's leading companies specializing in solar rooftop systems, whether in office buildings, production halls, parking lots or logistics properties.

The building is equipped with solar panels integrated into the facade, which generate electricity for the building's needs, significantly reducing its carbon footprint. This self-sufficient design not only supports energy savings but also contributes to long-term operational cost reduction.
