How much power does a solar farm have?

This vast solar farm amounts to 1.4 megawatts of power generation capacity. Six megawatt-hours of battery storage and load balancing systems enable the microgrid to store excess energy for deployment when the sun isn't shining. As a result, the island can stay powered for three full days with no sunlight.

How many solar panels does Ta'u have?

In 2016, the founders of Maui, Hawaii-based company Mana Pacific helped design and implement Ta'u's solar-energy microgrid composed of over 5,300 solar panels. This vast solar farm amounts to 1.4 megawatts of power generation capacity.
