

# Cayman Islands drax energy solutions limited

Renewable energy company Drax has become the latest founder member of the University of Sheffield's newly-launched Energy Innovation Centre. The new partnership will drive forward research into next-generation carbon capture technology, including innovations in bioenergy with carbon capture and storage, or BECCS.

renewable energy and decarbonisation agendas. Our Group ambition is to become carbon negative by 2030. For more information, see pages 47 to 62 of the 2022 Drax Group plc Annual Report and Accounts. Drax is an active participant in the communities in which it operates. Strong community relationships and

other companies in the Drax group of companies such as Drax Corporate Limited or Drax Power Limited (based in the UK) who provide financial services, HR support, security, IT and system administration services and undertake management reporting and statistical analysis of our customers to improve our product and service offering\*\*;

Drax Energy Solutions; Opus Energy; Elimini; Pellet Operations; Community; Drax Foundation gives £2.7m boost to communities globally > Sustainability. We're building for a sustainable future in how we source our biomass, generate energy, remove carbon dioxide and function as a business. Our Approach.

Drax is the world's leading sustainable biomass generation, production, and supply business, and is developing options for BECCS in the UK. Our Responsible Sourcing Policy is informed by science, and the biomass we use to generate electricity is assessed against sustainable forest management principles.

The global energy market continued to see a transition to cleaner and more sustainable energy sources, advancements in technology, and a growing emphasis on digitalisation. Environmental concerns, enhancing energy security, and meeting the evolving demands of a changing world remain high priorities for governments across the world.

Opus Energy. Drax Developments Limited, a member of the Drax group, has entered into a binding conditional agreement with the shareholders of Opus Energy (the "Sellers") for the purchase of Opus Energy for £340 million, payable in cash on completion (3).. Completion of the acquisition is conditional on, amongst other things, the approval of Drax's shareholders ...
