CleanLeaf, previously known as Borrego O& M, stands at the forefront of the renewable energy sector. Our expertise lies in the operations and maintenance of both photovoltaic systems and energy storage solutions. We are dedicated to enhancing the efficiency and uptime of an expanding portfolio of commercial and utility-scale solar assets. Our services encompass ...

Cleanleaf Energy, formerly Borrego O& M, a leader in renewable energy operations and maintenance (O& M) services, is thrilled to announce the signing of new utility-scale projects totaling 350 ...

Cuba: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO<sub>2</sub> - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions. However, some energy ...

At Cleanleaf Energy, we are more than just an O& M company; we are a catalyst for change in the global energy landscape. Our vision is clear: a world where renewable energy is not just a choice, but a standard. We strive to make this sustainable future a reality by providing exceptional operations and maintenance services for medium to large ...

About Cleanleaf Energy Cleanleaf Energy (previously Borrego O& M) is a leading provider of operations and maintenance services that optimizes the performance of large commercial, community solar ...

By Greg Shambo, VP of O& M sales, Cleanleaf Energy | Published in Solar Power World | November 23, 2021. When solar asset managers open their proverbial pockets to contract with a long-term O& M company, the opportunity to maximize solar plant performance is often doomed from the start. With a limited supply
