Do solar panels need maintenance?

Solar panels have no moving parts, which makes them relatively low maintenance. But if you want to reduce solar panel costs and maintenance over time, you'll need to look after them. Here are a few things that you should do to keep your panels in tip-top condition:

How often do solar & battery systems need maintenance?

In the case of a solar & battery system, some technical experts in the industry estimate that it will need three call-outs across a 20-year period - one for the panels, one for the battery, and one for the inverter. Solar panels can also require more regular maintenance in order to get rid of dirt and debris.

Do solar panels need to be cleaned?

Be sure to clean the panels early in the morning before they get too hot from the sun; cold water and hot panels do not mix! Solar panel maintenance and cleaning is not covered under panel warranties, but if your solar panels are damaged, they will usually be covered. Do solar panels need to be maintained?

How often should a solar panel be cleaned?

Solar panels require very little maintenance, especially if they are on a tilt, as rain can wash away any debris. It is generally recommended that you perform solar panel cleaning between two and four times per year. Take extreme care when cleaning. Clean from the ground, as climbing around on your roof can be dangerous.

Do solar panels need maintenance in the UK?

Solar panels in the UK do not typically need extra maintenance, since the UK climate is generally favourable to them. According to manufacturers' standards, 25°C is the optimum temperature for solar panels to operate - so the UK summertime is the prime time for your panels.
