

# Do you need to wipe the solar panels

How do you clean a portable solar panel?

Wash or wipe a portable solar panel with water or a damp cloth just like rigid panels. If you've been on a particularly muddy camping trip, or you're using larger panels for home backup, you might need to give them a rinse. EcoFlow portable solar panels have an IP67 waterproof rating. Easily clean them with a slow stream of water when necessary.

How do you clean solar panels with water?

When cleaning your panels with water, use a standard garden hose and soapy water. You don't need to purchase any particular cleaning solution to clean your panels; regular dish soap will work perfectly. Avoid any strong cleaning agents like bleach that could damage your panels.

Do solar panels need to be cleaned after a downpour?

Whether you have a rigid rooftop array or a series of portable solar panels, it's best to keep cleaning to a bare minimum. While rooftop panels should be fine after a downpour, call a cleaning service if in doubt. For your portable panels, keep it simple with water, and a soft cloth.

Should you clean your solar panels regularly?

The experts at Solar Panel Cleaning Ltd explain that if you don't regularly clean your solar panels dust can accumulate and even just one dusty cell can affect the performance of the entire panel.

Do portable solar panels need maintenance?

Since portable solar panels can fold away, they may need less maintenance than rigid PV panels. Wash or wipe a portable solar panel with water or a damp cloth, just like rigid panels. If you've been on a particularly muddy camping trip, or you're using larger panels for home backup, you might need to give them a rinse.

Can You Wash solar panels on your own?

These can be found at a local home maintenance store. Find a safe place to stand, spray soapy water on the panels and then thoroughly rinse them off. It's really that simple. Before you decide to wash the panels on your own, you should see what's covered by your solar service provider.
