

Egypt commercial battery storage uk cost

Norwegian energy company Scatec has signed a power purchase agreement (PPA) with the Egyptian Electricity Transmission Company for a 1GW solar and 100MW/200 megawatt hours (MWh) battery storage project in Egypt. The agreement, denominated in US dollars, extends for 25 years.

Your system will include battery modules, bi-directional inverters, a thermal management system and controls. Megapack stores your clean energy for use anytime. Customise our all-in-one system to suit your facility - with or without solar - and lower your energy bills from day one.

Battery storage will be a necessary technology once renewable energy accounts for 40-50% of the energy mix, Zahran said, who said that it could be done in less than 10 years provided the government reforms the energy market.

As battery prices drop and efficiencies increase, battery storage solutions are becoming an attractive option for many organisations. The EAG can organise a full feasibility review of your site to evaluate the potential for a range of battery storage solutions to suit your needs.
