

Cellcube, officially called Enerox but better known by its brand name, has signed the five-year framework agreement with renewable energy developer Kibo Energy to deploy at least 1GW of storage in targeted Southern African Development Community (SADC) countries. The SADC comprises all 16 countries from South Africa up to the Democratic Republic ...

A solar PV array with a co-located CellCube VRFB system. Image: CellCube / Enerox. The US Department of Defense Defense Innovation Unit will try out "prototype advanced energy systems" based around long-duration energy storage (LDES) technologies.

CellCube Energy Storage Systems Inc. is pleased to announce that its wholly-owned subsidiary, Enerox GmbH, has been selected as the long-duration energy storage system solution for E.ON ...

Image: Enerox/Cellcube. South African energy company Kibo Energy will procure two vanadium redox flow battery system pilot projects from CellCube, the first step in a larger rollout. Kibo, which is listed on the London Stock Exchange, has committed to purchase two proof of concept (POC) projects from flow battery company CellCube (official name ...

Bushveld first announced its intention to acquire Enerox from CellCube Energy Storage Systems Inc in November 2019. The Canadian company will keep a 10% share in the target. The deal is part of Bushveld Energy's strategy of establishing a VRFB investment platform to lead investments in VRFB original equipment manufacturers with attractive ...

Under its trademark "CellCube" the US and Austrian based Enerox GmbH develops, manufactures and distributes Vanadium Redox Flow Batteries. "VRFB"s are sustainable, long-duration energy storage systems, improving and securing the consumption of energy from renewable sources. Enerox is a developing pioneer and the global technology and ...
