

Erthos solar energy Wallis and Futuna

Who is erthos solar?

Erthos, Arizona-based creator of Earth Mount Solar PV, has announced 14MW of contracted projects and a MOU for a 107MW single project.

How does erthos solar work?

Erthos' technology mounts solar modules directly on the ground without steel supports or trackers. Image: Erthos. Erthos, an Arizona-based energy technology company and creator of Earth Mount Solar PV, has announced 14MW of contracted projects and a memorandum of understanding (MOU) for a 107MW single project.

How many solar projects does erthos have?

Including projects totaling 9 MW with two undisclosed developers, this brings the newly announced portfolio of contracted projects to 34 MW. Erthos now has 17 solar plants under contract nationwide, with more new projects to be announced soon.

Why should you choose erthos for your solar project?

Erthos offers a complete solar integration platform with all the capabilities necessary to bring your project to fruition. From instant project estimates to project engineering, technology provisioning, financing, construction, and long-term operations and maintenance, our platform integrates every step of development for an optimized experience.

Who is erthos capital?

Erthos Capital provides developers with repeatable project financing for conforming Earth Mount Solar projects. Having built some of the largest solar plants in the world, our team knows what it takes to build quality assets. We offer ground-breaking O&M services, including our one-of-a-kind ErthBot autonomous cleaning robot.

What is erthos & how does it work?

Streamline Development. Maximize Returns. A technology platform for accelerating the world's transition to renewable energy. Erthos offers the only solar deployment technology capable of providing bankable project characterization with a few basic inputs and the click of a button.

Established in 2019 in Tempe, Arizona, Erthos offers comprehensive solutions designed to significantly reduce the levelized cost of energy (LCOE) for utility-scale solar power plants. With a leadership team hailing from industry giants like Tesla, Intel, and General Electric, Erthos has global market experience spanning from the US to the Pacific.
