

The resolution argues that BESS projects do not provide "realistic economic benefits to the city" and could pose health and safety risks, decrease residential land values, discourage employers ...

OF ESCONDIDO I. Background At its October 9, 2024, meeting, the City Council of the City of Escondido ("City") adopted an urgency interim ordinance establishing a temporary prohibition on new commercial battery energy storage systems ("BESS") within the City's boundaries ("Urgency Ordinance No. 2024-12"). More specifically, Urgency

The Project site comprises the BESS site (approximately 22.55 acres) and an approximately 1-mile gen-tie line and associated gen-tie corridor to connect to the SDG& E Escondido Substation (approximately 22.25 acres). Collectively, the BESS site and gen-tie corridor total approximately 44.80 acres (referred to as the Project site).

The Escondido Police Department went further, orchestrating a shelter-in-place directive for areas bordering I-15 framed by Enterprise Way, Auto Park Way, and W. Mission Ave. to reconcile with the ...

ESCONDIDO, Calif. -- A proposed 320 megawatt energy storage plant would be built on 22 acres. It's the site of a former horse ranch in Eden Valley, near Escondido and San Marcos. It's a move ...

The system deployed at Escondido uses AES Advancion 4 BESS units. AES' energy storage operations were rolled into Fluence, AES Corporation's joint venture (JV) with Siemens, which launched in early 2018, a few months after the project's inauguration. Now one of the biggest BESS integrators worldwide, Fluence remains responsible for ...

Escondido has become the first city in San Diego County, California, to prohibit battery energy storage sites until new land use policies and standards related to BESS are developed. On October 9, the city council voted unanimously to put temporary restrictions in place for an initial 45-day period.
