How can we help you?

What is a solar backup generator?

Solar backup generators provide a portable solar power supply. Instead of having a permanent solar installation in your home, complete with roof panels and a large battery bank, a solar generator packages everything in one relatively small unit. Solar backup generators have five main components: Solar panels to capture sunlight.

What is the best solar generator for home backup?

The Renogy Lycan is one of the largest and most capable solar generators in the market right now. It's designed to be wired to a home power grid. You can even set it up as a UPS, ensuring essential appliances stay powered in a blackout. That, plus its fast charging performance makes the Lycan 5000 one of the best solar generators for home backup.

Should I buy a backup generator for my home?

If you are really committed to buying a completely renewable backup generator for your home and want enough backup/standby power to run your air conditioner and refrigerator for days, then you can always purchase multiple generators or get an expandable solar generator. 1. Best For Home Integration (UPS): Renogy Lycan 5000 Power Box
