

# Ethiopia      california      energy      storage alliance

California is a world leader in energy storage with the largest fleet of batteries that store energy for the electricity grid. Energy storage is an important tool to support grid reliability and complement the state's abundant renewable energy resources.

What is the CESA MDF? CESA's 15th Annual Market Development Forum (MDF), takes place on October 22-23, 2024 at the David Brower Center in Berkeley, CA. The MDF is an invite-only gathering of the energy storage ecosystem, including regulators, utilities, and CESA members, focused on how energy storage will support California's decarbonization and grid reliability goals.

The California Energy Storage Alliance is the definitive voice of energy storage in California. At 100+ members strong, CESA is committed to advancing the role of energy storage in the electric power sector. CESA is a 501(c)(6) membership-based advocacy group. CESA is technology and business model - neutral and is supported solely by

The CESA Board of Directors is composed of individuals from leading energy storage companies in California, the United States, and the world. [Skip to content](#).
