

The Sea Lion Oil Field is located in Block 14/10, in hydrocarbon licence area PL032, offshore the Falkland Islands, in the South Atlantic Ocean. The water depth in the region is approximately 450m. Israel ...

"Declassified documents show that Britain has long been interested in oil around the Falkland Islands. In 1975, an energy department official wrote: "Our ministers are very interested in the possibility of exploiting offshore oil around the Falkland Islands." In retrospective, it all makes a lot of sense.

The wind power potential in the Falkland Islands is very good. In 2016 the islands generated 19 GWh of electricity. Of this 53 percent was generated by fossil fuels and the remaining 47 percent was generated by wind turbines. As of December 2021, one energy company on the Falkland Islands had already installed in excess of 100 wind turbines ...

Dr. Andrea Clausen will assume the role of Chief Executive in early 2025 . After a robust appointment process, Her Excellency the Governor and the Falkland Islands Legislative Assembly are ...

The Sea Lion oil fields are located approximately 250 kilometres north of the Falkland Islands. The discovery of large oil fields around the Falkland Islands led to renewed political tensions between Britain and Argentina in the late 1990s. In February 2010, drilling for oil and gas began in the waters of the Falkland Islands. (Graphic: Archive)
