

Free installation of photovoltaic panels on rental roofs

What is a solar panel rent-a-roof scheme?

The Rent-a-Roof scheme lets people who can't otherwise afford solar panels gain access to them, through installers who will setup solar panels on roofs for reduced prices. Installers can then sell any excess electricity generated back to the grid.

Can you get free solar panels on a roof?

Companies offered to pay to lease your roof from you for 20-25 years and, in exchange, would install and maintain solar PV panels on it. You didn't have to pay upfront for the panels, and would also benefit from the free electricity produced by the system. But there are very few free solar panel schemes available now.

How much does it cost to install solar panels on a roof?

1. A range of companies (HomeSun, A Shade Greener) will install free solar panels onto your roof at no cost to yourself. Typically an installation can cost something in the region of £15,000. 2. The panels, installation, maintenance and insurance all come free as part of the package. You don't have to pay for a thing. 3.

Can a landlord install solar panels on a rental property?

Tenants and landlords can also benefit from solar panel government grants and schemes designed to make properties more energy efficient. If you're a tenant and would like solar panels installed on your rental property, the first step is to secure permission from your landlord.

Are solar panels paying rent for your roof?

Technically, they're not paying rent for your roof, because you'll get the benefit of powering your home using solar power instead of grid electricity. They'll make money from the electricity you don't use. All excess electricity generated is sold back to the grid via the Smart Export Guarantee (SEG) scheme.

Can you buy a house with rent-a-roof solar panels?

Buying a house with Rent-a-Roof solar panels could lead to mortgage complications. For example, if the lease includes maintenance cost obligations, or if there are certain access rights granted to the installer, a mortgage provider could be unwilling to lend.

There are multiple solar panel grants for the purchase of panels and their installation, including the 0% VAT scheme and the ECO+ scheme. These can help alleviate some of the installation ...
