It's so easy to reap the benefits of solar power: The completely redesigned Sunny Boy 1.5/2.5 is the perfect inverter for customers who want to take full advantage of their small PV system. Among other features, it enables an increase in consumption of self-generated power, allows versatile uses, and is very easy to integrate into the home network addition, its innovative design and ...

The Sunny Boy Storage is the best priced battery-inverter on the market that I can find. It comes with a 10 year warranty. It is able to output a maximum of 2.5 kilowatts of AC power, below the maximum output of most battery storage systems. These systems could still be used with the Sunny Boy Storage, but not at their full power.

The Sunny Boy Storage 3.7 is a high-performance SMA battery inverter for private homes. Larger storage systems are easy to implement and are flexible to expand with a total of three battery connections.
