Is Freyr battery a vertically integrated company?

FREYR Battery, Inc. (NYSE: FREY) recently announced a strategic pivot from producing battery cells to producing solar modules, having the ambition to become a vertically integrated company also producing solar cells in the U.S. It will achieve this by acquiring the U.S. assets of Chinese solar panel manufacturer Trina.

Who is Freyr battery?

FREYR Battery is a developer of clean, next-generation battery technology production capacity. The Company's mission is to accelerate the decarbonization of global energy and transportation systems by producing clean, cost-competitive batteries.

Where are Freyr batteries made?

FREYR has commenced building the first of its planned factories in Mo i Rana, Norway and announced potential development of industrial scale battery cell production in Vaasa, Finland, and the United States. FREYR intends to install 50 GWh of battery cell capacity by 2025 and 100 GWh annual capacity by 2028 and 200 GWh of annual capacity by 2030.

Why is Freyr a good partner for lithium-ion battery production?

With this step, FREYR has strengthened the Company's position as an attractive industrialization partner of choice for both novel and established Lithium-Ion battery production technologies. FREYR has also made material progress with its conventional production platform strategy.

Who is Freyr partnering with?

We are proud to be partnered with Trina Solar, a global manufacturing and solar technology leader." commented Daniel Barcelo, FREYR's newly appointed Chief Executive Officer. "Domestic manufacturing capacity for solar and batteries is essential for energy transition and job creation.

Is Freyr's pivot to solar energy a prospect to approach cautiously?

Adding uncertainty to the incoming administration's policies and the glut in solar production equipment, FREYR's pivot to solar energy looks like a prospect to approach cautiously. I will watch from afar. Income-oriented individual investor focusing on building a solid dividend portfolio within oil and gas, shipping, energy, and minerals.

2 ???&#0183; FREYR Battery, Inc. provides battery solutions in the United States, Norway, and internationally. The company develops battery cell manufacturing facilities. It serves its products to energy storage systems and commercial mobility, including marine applications and commercial vehicles markets. The company is headquartered in Luxembourg.
