

Did CGX find oil offshore Guyana?

CGX Energy has finally found oil at the Kawa-1 well offshore Guyana in the Corentyne Block. The company has been searching for oil in the area for over two decades.

Will Exxon Mobil make Guyana the fourth-largest offshore oil developer?

Exxon Mobil struck black gold in 2015 when it discovered a massive oil reserve off the coast of Guyana in South America. It's poised to make Guyana the fourth-largest offshore oil developer in the world, and it's already jump-started a transformation within the developing economy. But will this oil bonanza benefit Guyana's people?

Is CGX's Guyana well commercially viable?

The commercial viability of CGX's Guyana well is still to be ascertained through further drilling. Dr Suresh Narine, the Executive Chairman of CGX Energy stated that success at this well could prove quite promising for CGX's operations in Guyana. The company announced promising findings on Monday.

What's going on with Guyana's Corentyne oilfield?

Guyana recently received bids from international and local firms for eight new blocks to be awarded soon. The joint venture retained Subsea Integration Alliance (SIA), an oilfield services group by SLB's (SLB.N) OneSubsea and Subsea7, to complete a conceptual field development plan for Corentyne, it said during the presentation.

Could Frontera-CGX be the next oil & gas exploration project in Guyana?

The Frontera-CGX joint venture could become the next group to advance an oil and gas exploration project in Guyana after an Exxon Mobil-led (XOM.N) consortium. That group began output in 2019 and is this year producing some 400,000 barrels per day.

Die BW 3000 ist die neue Generation von ertragreichen Windenergie-Anlagen in der 3 MW-Klasse - designed for Mittel- und Schwachwind-Standorte. Sie erzeugt durch eine besonders wartungsarme Konstruktion und deutlich reduzierte Betriebskosten. Der Hybrid-Drive, die Kombination aus zweistufigem Getriebe und einem mittelschnellen Synchrongenerator, ...
