

Why did Gabon's oil production increase in Q4?

This was up from USD 75.9 million in the previous quarter, due to higher oil sales following record quarterly production in Gabon. The net production from operated assets was 25,570 bbls/day.

What type of electricity does Gabon use?

Renewable electricity here is the sum of hydropower, wind, solar, geothermal, modern biomass and wave and tidal power. Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Gabon: How much of the country's electricity comes from nuclear power?

Is biomass a source of electricity in Gabon?

Traditional biomass - the burning of charcoal, crop waste, and other organic matter - is not included. This can be an important source in lower-income settings. Gabon: How much of the country's electricity comes from nuclear power? Nuclear power - alongside renewables - is a low-carbon source of electricity.

What is the income inequality in Gabon?

Nonetheless, income inequality remains high. In 2021, the HDI ranked Gabon 119th out of 165, estimating that 30% of the population has a monthly income below the guaranteed monthly minimum wage of \$143. Gabon's largest industries are petroleum, minerals (mostly manganese), and timber.

Is Gabon a middle-income country?

Gabon is located on the Gulf of Guinea in Africa and has a population of approximately 2.2 million. Gabon's per capita GDP of \$7,421 (World Bank 2020) is one of the highest in sub-Saharan Africa and it is thereby considered an upper middle-income country. Nonetheless, income inequality remains high.
