

# Greener power solutions b v United Arab Emirates

Who is greener power solutions?

We are Greener Power Solutions. A pioneer in the temporary energy market and the fastest-growing energytech in Europe. Our mission is to provide emission-free energy everywhere. That way, we accelerate the transition from fossil fuels to sustainable energy sources and enable organizations to take action towards a greener future.

How does greener provide the power supply?

Last year, Greener provided the power supply through battery swapping: shuttling a battery back and forth to the festival site to discharge into an on-site battery, thus creating an energy supply even without a grid connection. This year, we expanded on that and brought some brand new innovations.

Is the UAE ready for a net-zero future?

Between its ratification of the 2015 Paris Agreement, its \$160 billion investment in renewables over the next 30 years, and its green initiatives collaborations with other nations and private sector leaders, the UAE has made aggressive efforts toward a net-zero future--leading its region in the process.
