Greenland Energy Services Ltd was established 10 years ago in 2012. Our main mission is reducing the carbon footprint and getting all retrofit work done in the housing sector mainly with different grant funding. We have helped 100's of households to get the insulation, heating, and boiler upgrades done at Zero cost.

With the decreasing cost and improving performance of small hydro installations, solar power, wind power, and energy storage systems, renewable energy is expected to supplement or replace existing diesel grids on islands and in remote areas.

Sustainable, Reliable & Affordable Energy! Providing Value To Our Clients Through Ongoing Product & Innovation. While improving the yield and performance of solar energy products, our PV industry experience enables us to provide in-depth material sourcing, financing and supply chain expertise for every step.

We drive the transition to more sustainable, reliable & affordable energy systems. With our innovative technologies, we energize society, that's our aim! The increase in extreme weather events and rising sea levels are unmistakable signs of climate change.
