The Brenneman project is the first one that Doral LLC acquired. All the necessary landowners have signed onto this project, and all the necessary construction permits and feasibility studies have been obtained. The project's acquisition was completed at the end of 2021.

Project completion is scheduled for late 2023. "MYR Group is proud to play a significant role in this important project, leveraging our technical expertise to deliver superior construction and further elevating our position in the clean energy market," said Rick Swartz, President and Chief Executive Officer of MYR Group. "This award ...

Renewables provider REC Solar and turnkey solar service firm Chroma Energy Group have completed three solar projects in north Georgia as part of Georgia Power's Renewable Energy Development Initiative (REDI) ...

The U.S. Department of Energy is loaning \$1.45 billion to support a South Korean company's bid to build up key parts of the solar supply chain inside the United States. The loan announced Thursday will be key to funding a \$2.2 billion complex that Qcells, a unit of South Korea's Hanwha Group, is building northwest of Atlanta.

The projects will help to advance solar in the state as part of Georgia Power's Renewable Energy Development Initiative (REDI) program. The Whitfield Cooper, Gordon Pine Hall and Chattooga Gore project sites have a combined 17,160 solar modules that represent a total solar capacity of 7.9 MW DC.
