The listed kilowatts installed by each company in Guam could come from installations in all markets (residential, commercial, community solar, utility) but only within Guam territory lines. The companies below are a segmented portion of the overall 2023 Top Solar Contractors List, organized by kilowatts (DC) installed in 2022.

Making the Right Decision for Your Business In Guam, solar panels are becoming increasingly popular as an alternative to traditional sources of power such as coal and natural gas. This is due to the abundance of sunlight on the island and its relatively low cost compared to other forms of energy generation.
