

Guyana okapi energy group

What is Okapi Energy Group?

Okapi Energy Group is a group of companies dedicated to delivering superior performance throughout the energy value chain for West Africa.

What is the petroleum industry like in Guyana?

Petroleum industry in Guyana is rapidly evolving. Guyana has emerged as one of the newest petroleum producing regions in the world, achieving its first commercial grade crude oil draw in December 2019. Crude oil is sent abroad for refining.

How much oil has been discovered in Guyana?

Early estimates claimed the area contained 700 million barrels of oil (a total value of US\$40 billion, international crude price at the time of discovery). As of March 2024, more than 30 discoveries of oil and gas have been made offshore Guyana.

Will Guyana increase its oil production by 2027?

With plans to further increase production to about 1.3 million barrels per day by 2027, Guyana is set to significantly expand its influence in the global oil market, presenting new economic opportunities and challenges for the country.

How many oil wells are there in Guyana?

United Nations International Tribunal for the Law of the Sea (ITLOS) determined the exact borders in September 2007 but no further wells were drilled until 2012. As of 2020, Guyana has nine petroleum blocks under active leases, of which six have had active exploration.
