# Home electricity backup Oman

backup power is within reach of everyone.

REVOV battery backup systems supply either 5kVA/10.2 kWh or 5kVA/5.1 kWh. A 10 kWh battery system can power an average household for at least 10 hours. It may last two to three times longer for more conservative energy users. A backup battery can't fully power a home or small business for days on end.

Batteries aren't the only form of home energy storage. If you've experienced a power outage in the past, you may have already invested in a generator. But home backup batteries are becoming an increasingly popular choice over home generators. They offer many of the same backup power functions as conventional generators without the need for ...
