

# How is Trina Solar Panel Factory

Where is Trina Solar Building a solar panel factory?

Chinese solar panel powerhouse Trina Solar announced it will build a 1 million-sq-ft solar panel factory in Wilmer, Texas, that will have an annual manufacturing capacity of 5 GW. The company is investing more than \$200 million into the site and will create 1,500 local jobs.

Who owns Trina Solar?

FREYR Battery is acquiring Trina Solar's 5 gigawatt (GW), 1.35 million-square-foot solar panel factory in Wilmer, Texas, that only just came online on November 1. FREYR, which was founded in Norway and moved its headquarters to Georgia, will pay \$340 million for Trina's factory.

Why is Trina Solar a Super Factory?

Trina Solar's Super Factory have vastly improved the efficiency and speed of innovation in the photovoltaic industry, accelerated the industrialization of 600W+ ultra-high-power module products, and pushed China's photovoltaic industry forward to lead the world again.

Where does Trina Solar come from?

Trina Solar says it will source polysilicon, a key raw material in the solar supply chain, from the US and Europe. The factory will come online in 2024. Trina Solar's Texas factory will produce the company's Vertex modules that incorporate 210mm silicon wafers that allow over 600W power output and up to 21.4% module efficiency.

Why is Trina Solar launching a new manufacturing facility in Texas?

The new manufacturing facility in Texas is a great leap in the solar development expansion. Trina Solar as Global Leader Trina Solar was founded in 1997. As a global leading provider for photovoltaic (PV) module and smart energy solutions, Trina Solar delivers PV products, applications and services to promote global sustainable development.

When will Trina's Solar panels be made?

The factory is expected to come online in 2024 and will make Trina's large Vertex modules using the 210-mm wafer size. Trina's joins fellow China-dominated companies Canadian Solar and LONGi as starting 5-GW factories in the United States -- the largest single-site silicon solar panel manufacturing facilities in the country.

Earlier this month, Trina Solar announced a \$200 million investment to build a solar module production plant in Wilmer, Texas with a designed annual capacity of 5 GW and with polysilicon sourced in the US and ...
