Hungary monolithic power systems

Who is monolithic power systems?

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES Monolithic Power Systems, Inc. (the "Company") was incorporated in the State of California on August 22, 1997. On November 17, 2004, the Company was reincorporated in the State of Delaware. MPS designs, develops and markets high-performance, semiconductor-based power electronic solutions.

What is monolithic power control?

Monolithic makes highly sophisticated power control chipsthat go into a range of technology applications. The power and heat burdens on artificial intelligence chips has grown in recent years, making the AI segment the biggest growth driver for Monolithic over the past couple of years.

Why did Monolithic Power Systems (MPWR) rally 5% today?

Shares of Monolithic Power Systems (MPWR 4.74%) rallied hard today,up 5% as of 3:15 p.m. ET Monolithic was beaten down in November on fears of market share losses in its high-growth artificial intelligence (AI) segment. However, with shares down 35% from their recent highs, Monolithic found one more defender on Wall Street today.

Why did monolithic stock crash?

But Monolithic's stock crashed back in November when Edgewater Research wrote it believed Monolithic had lost market share in the all-important Nvidia Blackwell AI server power module, due to performance issues at higher power levels.

Does monolithic power systems have internal control over financial reporting?

We have audited Monolithic Power Systems, Inc.'s internal control over financial reporting as of December 31,2022, based on criteria established in Internal Control -- Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) (the COSO criteria).

Will monolithic power lose market share in Blackwell modules?

Of course,Monolithic Power could lose market share in Blackwell modules for other reasons, such as the desire for Nvidia to diversify its sources of power controllers. Still, with the need for power solutions increasing across a variety of applications, Monolithic's revenue and profits should still grow in the years ahead.
