

rimstar is all about sharing projects and knowledge about them, whether that's how to make them or how they work or both. It started out in 1999 as a way to share what I'd done and to reach out for like-minded people and as you can ...

rimstar is all about sharing projects and knowledge about them, whether that's how to make them or how they work or both. It started out in 1999 as a way to share what I'd done and to reach out for like-minded people and as you can see, it's grown ever since.
