

# Joju solar Switzerland

Joju Solar are UK experts in solar energy, battery storage and electric vehicle charging. Founded in 2006, we work with homes, universities and councils to deliver renewable energy solutions.

Joju Solar are designers and installers of renewable energy systems. We specialise in solar PV, battery storage and electric vehicle chargers. Our mission is, and always has been, to help people reduce their carbon emissions. Founded in 2006, we are one of the longest-standing and most trusted solar companies in the UK.

The Zappi EV charger is the first of its kind, smartly diverting excess solar electricity directly into your car. The exported electricity from a typical domestic solar roof could run a Nissan Leaf for a whopping 5000 miles! Cost: From £400+VAT. Benefit: Up to 5000 miles per year from a typical 3kWp solar roof.

At Joju Solar's Southampton hub, we've been helping our customers and clients to get the best renewable energy setup for their needs for over a decade. We install solar PV systems, solar panels, battery storage solutions, LED lighting and electric vehicle (EV) charging points for homes, businesses, schools, councils and other public sector ...

Solar and Storage at the University of Wales Trinity St David. The University of Wales Trinity Saint David (UWTSD) declared a climate emergency in 2019 and is dedicated to creating a community which supports sustainability through social, economic, cultural, and environmental responsibility.. Sustainable development is one of the University's values, with staff and students working ...

An iconic and award-winning install. Installing solar PV on Salisbury Cathedral was always iconic... and now it's award-winning too! We've just won the Alan Clark Award for Local/Community Energy at the Solar and Storage Live Awards, 2021 ...

SunPower Performance solar panels can deliver up to 8% more energy over the first 25 years of the installation, compared to many conventional solar panels, using the same position and amount of space. With a cost that is only slightly above most conventional solar panels, we can advise on whether this product is one the best-suited to your setup.

Joju Solar have been patient and supportive throughout the install of my new solar array and Powerwall 2 battery system. They fitted the battery in a day, wired it up, stayed longer than expected to make sure it was all working, left the place spotlessly tidy and did a very fine job.

Joju Solar has a dedicated team of 80 experts. We are proud to be independent leaders in solar energy, battery storage, and electric car charging solutions. Over the past 18 years, we've designed and installed thousands of systems across the UK for councils, universities, businesses, and homeowners.

Joju Solar worked with my wish list and presented the practical answer. Able to answer all technical questions. Their Project Manager then worked with us enabling late specification changes to be achieved. From start to finish we knew where we were and what was possible. All the roofers and electricians took pride in their work.

We have helped pioneer "democratic energy"; from building the very first community-funded solar project in the UK, to installing some of the largest community projects around. We've been responsible for nearly 10% of all community renewables in the UK, and all of our projects have been rooftop mounted solar.
