

Jordan array technologies

Who is array technologies?

ARRAY Technologies is a global leader advancing the future of clean energy. With over 30 years of innovations that have powered the solar industry, ARRAY is uniquely positioned to deliver renewable energy solutions for customers seeking clean energy adoption in markets around the globe.

Should you buy array technologies (array)?

Currently, the analyst consensus on Array Technologies is a Strong Buy with an average price target of \$30.42, a 61.55% upside from current levels. In a report released on September 28, Barclays also maintained a Buy rating on the stock with a \$30.00 price target.

Does array technologies have a strong demand for its products?

Levy also underscores the firm's continuous strong bookings, which came in at \$429 million for the quarter, despite a slight decline in total contracts and awarded orders due to various market factors. This suggests a healthy demand for Array Technologies' products.

With ample sunshine, Jordan is a prime location for solar. However, high corrosion and heat levels near the saline-heavy Dead Sea pose challenges for the installation and longevity of solar tracking structures. ARRAY"s ...

With ample sunshine, Jordan is a prime location for solar. However, high corrosion and heat levels near the saline-heavy Dead Sea pose challenges for the installation and longevity of solar tracking structures. ARRAY's DuraTrack® HZ v3 solar trackers proved the perfect solution to meet these challenges.
