

Jordan solar power corporation

Does Jordan have a solar energy policy?

Jordan has implemented several policies to encourage the growth of solar energy in the country. In 2012, the government introduced a feed-in tariff system that offers a fixed rate for solar energy producers to sell their electricity to the grid.

Why did Kingdom for energy investments acquire 30% of Jordan Solar One?

Kingdom for Energy Investments Company acquired 30% of Jordan Solar One to help the government meet the increasing demand for electricity in Jordan. Under a Power Purchase Agreement (PPA), Jordan Solar One will provide the National Electric Power Company (NEPCO) with clean electricity for 20 years.

How does Jordan support the development of solar energy?

In addition, Jordan has signed several agreements with international organizations and foreign governments to support the development of its solar energy sector. For example, in 2018, Jordan signed an agreement with the International Finance Corporation (IFC) to support the development of a 200 MW solar project in the country.

What percentage of Jordan's electricity is generated by solar energy?

Currently, solar energy accounts for around 5% of Jordan's electricity generation capacity. This is relatively low compared to other countries in the region, such as the United Arab Emirates and Saudi Arabia, which have made significant investments in solar energy.

What is Jordan Solar One?

Jordan Solar One is one of the biggest plants with 20 MW capacity of solar Photovoltaics (PV) installed on 200 Acres in Al Mafraq, 50 km to the North East of the capital, Amman. Kingdom for Energy Investments Company acquired 30% of Jordan Solar One to help the government meet the increasing demand for electricity in Jordan.

What is the biggest solar power plant in Jordan?

In October 2016, Jordan signed a power purchase agreement with Masdar, a clean energy developer based in Abu Dhabi, UAE to build the biggest single solar installation in the country, Baynouna Solar Power Plant, with a 200 MW capacity.

Kingdom for Energy Investments Company acquired 30% of Hosha for Energy Generation to help the government meet the increasing demand for electricity in Jordan. Under a Power Purchase Agreement (PPA), Jordan Solar One will provide the National Electric Power Company (NEPCO) with clean electricity for 20 years.
