You can start planning directly with the key data in K2 Base. After your design, the data is transferred straight forwardly to the DocuApp. For the final documentation, many proofs are recorded, without any further work steps, and everything else is added shortly. The K2 Digital Toolbox brings you many features, that

K2 Systems is a specialist in roof structures for photovoltaic power systems. The K2 Systems roof systems respond to both the needs of users and the requirements imposed by mounting companies, to whom they provide promptness, effectiveness, and reliability.
