Lesotho salpha energy

needs.

As part of the U.S. Government's COVID-19 response, Power Africa awarded over \$2.6 million in grants to electrify health facilities, allocating funds to nine solar energy companies to provide urgently needed off-grid power to over 250 rural clinics in Lesotho and eight other sub-Saharan African countries, primarily in isolated areas beyond the grid.

The Problem It is a well known fact that about 1.3 billion people are forced to live their lives in energy poverty across the globe. That is 17% of the global population living in the dark. This means that these people lack access to basic energy services. Access to energy, means access to education, communication, ...
