Satrokala, Madagascar In the village of Satrokala in Madagascar, two renewable energy storage systems, supported by lead batteries, have been installed by Tozzi Green. A leading player in sustainable rural electrification, Tozzi Green's installation in Madagascar generates electricity through a combination of wind turbines and solar panels.

The pilot project, which comprises 720 PV modules as well as batteries with a storage capacity of 315kWh, was installed by local energy group Henri Fraise Fils & Cie in partnership with the US-based battery storage manufacturer Fluidic Energy, which supplied the integrated energy storage system.
