

GC PowerNest is a single-phase, 48-volt energy storage device with a capacity of 5 kWh and an efficiency of over 98%. This means that for every 100 units of energy that goes into the battery, you can reuse 98 units.

PowerNest is a home energy storage unit that will help you manage the energy generated from your PV system. Release yourself from the power grid and live the life you want! Do what you like.

Polish electronics supplier Green Cell has launched a residential battery based on lithium iron phosphate cells (LiFePO<sub>4</sub>). Called GC PowerNest, the battery has a storage capacity of 5kWh and a voltage of ...

GC PowerNest is energy storage for people who value an eco-friendly lifestyle and want to keep more green energy in their homes. Check what the latest Green Cell device is characterized by, which will power your devices whenever needed.

**RELIABILITY** - uninterrupted power supply guaranteed thanks to safe LiFePO<sub>4</sub> cells, safety systems monitoring the operation of the device and >98% efficiency. All this with a 10-year warranty. **ECOLOGY** - independent consumption of green energy from your PV **EXPANDABLE DESIGN** - you can combine up to 8 devices thus achieving up to 40 kWh of useable ...

Polish electronics supplier Green Cell has launched a residential battery based on lithium iron phosphate cells (LiFePO<sub>4</sub>). Called GC PowerNest, the battery has a storage capacity of 5kWh and a voltage of 51.2V. It is scalable in an eight-stack configuration, thus reaching a capacity of up to 40kWh.
