

Makro solar batteries Isle of Man

Manx Solar Electrical Ltd is a business dedicated to helping the Island reduce its carbon footprint through renewable energy solutions. From solar panels to heat pumps and battery storage, Manx Solar Electrical is driving innovation in renewable technology.

A well designed battery system coupled with solar PV enables you to slash or even fully eliminate your electricity bills, become greener, self-sufficient. Half Price Electricity? Manx utilities offer two domestic reduced rate off peak tariffs: Electric Vehicle Tariff (which requires an EV registered to your home) and Domestic Comfy Heat ...

Looking to upgrade your energy systems? We offer a wide range of services including solar PV, heat pumps, electric vehicle chargers, battery storage systems, wind turbines, air tightness testing, thermography, energy reports, and server room integrity testing. Let us help you find the right solution for your needs.

SOLAR SUPPLIER. MAKRO POWER designs & manufactures any type of PV solutions and cabinets connected to the grid, off-grid, with or without battery storage with designs adapted to customer requirements. Our products are: Panels, structures, inverters, connectors, meteorological devices, etc.

We are specialists in the installation and maintenance of solar PV, solar thermal, air and ground source heat pumps, air tightness tests, battery storage and electric car charging stations. We are the Isle of Man's exclusive Tesla Powerwall certified installer, we can install Powerwalls and car charging points .

Manx Solar Electrical are the Isle of Man's exclusive Stiebel Eltron service partners. We are also a Mitsubishi ASHP service partner and Dimplex approved and accredited installers. Our engineers install high performance JA Solar / REC and Sun Power solar modules together with SolarEdge optimisers and inverters.

Looking to upgrade your energy systems? We offer a wide range of services including solar PV, heat pumps, electric vehicle chargers, battery storage systems, wind turbines, air tightness ...

Solar & Batteries: A Perfect Combination A Battery System can make full use of the power generated by your solar panels, ensuring that any unused power is stored on site to be used later when needed. If your electricity is supplied with two rates (a day rate and cheaper night rate), the solar + battery combination ensures that peak rate ...
