

HP Series: The prefix "HP" indicates the series.; 35: This number represents the inverter's rated power in hundreds of watts. Here, "35" translates to a rated power of 3500 watts or 3.5 kilowatts. 4: Following the series indicator, the first single digit "4" denotes the nominal battery voltage this case, "4" signifies a 48V system.

An Introduction to EPEVER UPOWER Series Inverter/Chargers. Inverters are employed to convert the DC power to AC power, providing the required voltage and frequency at the output. Inverters can be considered as power adapters. So they are considered as one of the important parts of a photovoltaic system, which supplies AC power for any appliance.

Epever. EPEVER es ahora un fabricante líder de controladores de carga solar, inversores fuera de la
red, cargadores de inversores, sistemas de energía solar y otras unidades de energía solar.
Contamos con un stock constante de productos Epever en Perú

EPEVER UPower Series Inverter/Charger Solar Car Solar Home Solar Boat Solar Power Generator Overview
UPower inverter /charger combines with solar & utility charging and AC output in one unit, which adopts a
multi-core processor design and advanced MPPT control algorithm to realize intelligent management.

Unlock the potential of EPEVER premier 25.6V 120Ah Lithium Battery, meticulously crafted with A-grade
prismatic LiFePO4 cells to ensure over 4000 cycles at 80% DOD (25?, 0.5C). This high-performance battery
guarantees balanced cell functionality and multiple protective measures, encompassing overcharge,
over-discharge, over-temperature, low ...

Therefore EPEVER provides variety of means to monitor the system locally and via cloud. One can use the built-in LCD or use the accessories such MT50/MT75 to locally monitor the station. In addition, most of EPEVER products provide feasibility to work with an external power generator. In cloudy days, or when you have had higher consumption, an ...
