

Montenegro is set to install approximately 100 megawatts (MW) of solar panels on rooftops across the country by the end of 2024, President Milo Đukanović announced. The initiative is part of the government's broader strategy to boost renewable energy production and reduce reliance on fossil fuels.

Montenegro's transmission system operator, CGES, and Cetinje-based M Energy have signed the first agreement on connecting a planned solar power plant of 385 MW to the grid. The value of the project is around ...

A 150 MW system is planned by a firm called Solar Power in the village of Velestovo, where RES Montenegro Group's PV park would be, while M Energy recently signed the first agreement on connecting a solar power plant of 385 MW to the grid. It intends to install it on land in Nikšić and Cetinje.

Montenegro's transmission system operator, CGES, has signed an agreement with MEnergy to connect a planned 385 MW solar power plant to the grid. MEnergy will build the solar power plant at Ubli, Bogetić and Brođanac.

An important milestone was reached in Podgorica as the first agreement was signed to connect a massive 385 MW solar park, estimated at a value of approximately 300 million euros, to Montenegro's power transmission system.

After commissioning, it will be the largest solar power plant in Montenegro. The company CWP Europe through its subsidiary Sun Horizon Podgorica plans to install the Montechevo solar power plant with a total capacity of 400 MW on the territory of the Capital of Cetinje, in the area of Lastva, Ževo and Prenta dol.

Montenegro's power transmission system operator CGES has so far signed six connection agreements for solar power projects. Their total peak capacity would amount to 1.64 GW in peak capacity. The investors are M Energy, Sun Horizon, Obnovljivi izvori energije, Solar Power, EE Korita and Agenos Energy

Montenegro's transmission system operator, CGES, and Cetinje-based M Energy have signed the first agreement on connecting a planned solar power plant of 385 MW to the grid. The value of the project is around EUR 300 million.

Montenegro's state-owned power utility EPCG and the Investment and Development Fund (IRF) have finalized a EUR10 million agreement to finance the Solari 5000+ 70MW project. The initiative, which has already commenced, aims to install solar systems for households and businesses across Montenegro.
