What are ECO security towers?

Eco Security Towers are wireless CCTV towers designed to provide site security for construction sites, critical national infrastructure or any location requiring stand alone wireless CCTV with full surveillance. Eco Security Towers are an all in one security solution built with reinforced steel for durability.

Why choose EasyEco security towers?

Eco Security Towers require no existing infrastructure and provide a high continuity of service without constant visits to your site, allowing you and your staff to focus on your work, undisturbed. 24 month Continuous power in full operational use.

Harnessing the Power of the Sun - The Core of Solar CCTV Cameras . Solar Powered CCTV Cameras come equipped with advanced solar panels. These devices capture optimal sunlight and convert it into electrical energy. As these cameras rely on natural sunlight, they have become popular in areas with limited or absent traditional power sources.

It's also no secret that CCTV cameras are low-quality, blurry, and ineffective; plus, security guards are often more hassle than they're worth and far too expensive. That's why Solight developed its solar security tower. With a Solight security tower, you get the a mobile, rugged, state-of-the-art security system for an incredibly low price.
