What is a power purchase agreement (PPA) in Djibouti?

AMEA Power has secured a power purchase agreement (PPA) for a 25 MW solar-plus-storage project in Djibouti. It will be the country's first independent power producer (IPP) project and is now in development under a build-own-operate and transfer (BOOT) framework.

Will AMEA Power Invest in Djibouti's first IPP project?

The solar plant is the country's first IPP project and will be developed under a BOOT model. "The Sovereign Fund of Djibouti (FSD) will be joining the project before financial close as a minority shareholder," AMEA Power said, without providing additional details.

What is AMEA power's 25-year PPA for Djibouti?

Dubai-based AMEA Power has secured a 25-year PPA from Djibouti's state-owned utility, *Electricité de Djibouti (EDD)*, for a 25 MW solar-plus-storage plant it plans to build in Grand Bara, south of the national capital. The solar plant is the country's first IPP project and will be developed under a BOOT model.

Where does Djibouti's energy come from?

Most of Djibouti's energy supply, around 80%, is sourced from neighboring Ethiopia. At the end of 2023, Djibouti was among the select few countries throughout the world that had yet to install any PV capacity, according to the International Renewable Energy Agency (IRENA).

What challenges does Djibouti face?

The African Development Bank Group published the 2016-20 Country Strategy Paper on Djibouti, revealing that the nation faces challenges such as insufficient distribution networks and high electricity prices. Most of Djibouti's energy supply, around 80%, is sourced from neighboring Ethiopia.

AMEA Power has signed a power purchase agreement (PPA) with state utility *Electricité de Djibouti (EDD)* that will see the Dubai-based company become the first independent power producer (IPP) to develop a ...
